TITLE: Kiss Me
RELEASE DATE: 04 July 2011

Track list:

01. Lucas Türschmann - Kiss
02. Lucas Türschmann - Moon Breezness
03. Lucas Türschmann - Kiss (Chops And Sticks Remix by Irie Electric)

Lucas Türschmann discovered his love for electronic music at the early 00's. He immediately got himself his first turntables and began to soak up the previously missed techno-culture. After a few illegal and private gigs, he realized that he aspired for more than just DJing. Due to this inspiration he proceeded to produce his own tunes. In his tracks he conserves the ecstasy of certain particular moments of the last party, and takes the listener on his electrifying journey.

First track is a dreamy piece of house music, great for the after hours or early morning sets, while Moon Breezness is a deep and solid take on contemporary club sounds. Third and final track is a sophisticated remix of Kiss by Irie Electric, which lurks on the darker side of the dancefloor.
